<http://www.epa.gov/region8/qa/reference.html>

Yes, we are collecting data under an ORD QAPP. The document(s) are available on the Region 8 Pavillion website. Let me know if you need me to email them to you.

Subject: QA Requirements for Your Pavillion Project - Greg Oberley

Hi Greg -

The QA Program has identified that your R8 laboratory project involves the generation of environmental data.

Project Title: Pavillion

Our understanding is that this will be covered under an approved QAPP in partnership with the Office of Research and Development.

If this is not the case, please let us know so that we can update the Regional database.

EPA Order CIO 2105.0, Policy and Program Requirements for the Mandatory Agency-wide Quality System, requires approved Quality Assurance Project Plans (QAPPs) for all projects and tasks involving environmental data generation.

A QAPP will need to be submitted to the QA Program for each project which is not:
funded by a contract and covered by an approved contract QAPP,
funded by a grant and covered by an approved grant QAPP,
conducted in partnership with a Tribe or State and covered under an approved Tribal QAPP or a State Quality Management Plan (QMP), or
conducted with another Federal Agency and covered under an approved InterAgency QAPP/QMP.

For planning purposes, please allow up to 30 days for the QA Program to review/approve your QAPP. For your convenience I am attaching a link to the R8 QA Website which contains the following guidance documents, EPA QA/R-5, EPA Requirements for Quality Assurance Project Plans, and EPA QA/G-5,

Guidance for Quality Assurance Project Plans

as well as other R8 QA resources: <http://www.epa.gov/region8/qa/reference.html>

please contact Tom Brooks at x 7291 or me if you have questions or require assistance.

thanks,
LindaH.
